

## Permission required to sign up your child

Dear Parents,

We are excited to introduce YouHue, an app that will be part of your child's educational journey. YouHue is designed to help students articulate their emotions using a rich emotional vocabulary. It's a space where students can share their feelings and experiences, and it assists educators in providing tailored support for their learners.

### How YouHue Benefits Your Child

- **Mood Check-Ins:** YouHue's mood check-in tool allows students to log how they feel, enhancing their self-awareness and emotional intelligence.
- **Interactive Learning:** With a range of activities developed by educational psychologists, YouHue helps students manage their emotions and fosters a supportive learning environment.
- **Personal Growth:** Through regular use, YouHue encourages personal development and helps build a foundation for lifelong emotional wellbeing.

### Your Child's Privacy

YouHue takes your child's privacy seriously. We adhere to strict data protection standards to ensure all information within YouHue is secure and confidential. You have the right to request data deletion at any time, and we guarantee that YouHue data is never shared or sold.

If you have any questions, please don't hesitate to reach out to us at [help@youhue.com](mailto:help@youhue.com)

Yes, I give permission for you to sign up my child's student account and allow my child to use YouHue in the classroom and for YouHue to collect, use and disclose the information about my child as set forth in the [YouHue Privacy Policy](#).
